FROM THE PRIME MINISTER OF ISRAEL

I wish to offer my sincere appreciation to the Jewish National Fund of Australia for undertaking the sponsorship of new settlements and a Regional Service Centre in the Galilee.

Development of this area is crucial to Israel in terms of defence, demography and solving many of the problems of young people who want to settle in the region.

I should like to stress the urgency for constructing more settlements in the Galilee and the high priority accorded to this by the Government of Israel.

Your initiative and the involvement of the Australian Jewish community in financing the development of the land in the Galil region through the Jewish National Fund is a moving example of the unity of the Jewish people.

Initial plan of Galilee Mitzpim.

## You are invited...

You are invited to participate in the establishment of a childrens playground in Har Chalutz - a project sponsored by the Australian & New Zealand Union for Progressive Judaism in this outpost settlement of the Galilee.

Har Chalutz will be the third settlement of the Union in Israel and will provide an aliya alternative for immigrants of our Movement interested in a free enterprise settlement which nevertheless maintains a strong communal, cooperative lifestyle.

## Har Chalutz

The settlers of Har Chalutz will form a model community by creating a highly interdependent co-operative framework of cultural, social and religious life but will leave the livelihood choices to the individual. Such a community will be an extremely attractive option for members of the Union for Progressive Judaism who are contemplating aliya.

## The Challenge

The settlers are facing challenging tasks in building a viable community on a rocky, barren hill in the Galilee. They regard the goal to be worth the effort; to establish a new community which combines the ideals of religious pluralism, co-operative social institutions, peaceful relations for all the inhabitants of the region, preservation of a clean, unspoilt environment through thoughtful planning and development and the promotion of aliya to Israel, thereby strengthening the vital link between Progressive Judaism in Israel and abroad.

## They need our help...

They need our help to turn the dream of Har Chalutz into a reality of which all Jews in the Union for Progressive Judaism will be proud.

The playground, to be established by our Union for Progressive Judaism in Australia through the Jewish National Fund, fits within the scope of the overall environmental plan. It will provide a better quality of life and make the settlement attractive enough for others to join and develop it to its full potential.

By providing an essential facility for the children of the settlers at a time when pioneering conditions are harshest - the early beginnings - we can make an incalculable contribution to the consolidation and growth of the settlement, and thereby to the security and development of Israel.
