Jerusalem

Dear Mrs. Shitrit,

In continuation of our telephone conversation I would like to take this opportunity to inform you in writing of our positive and enthusiastic endorsement of the creation of a synagogue/community center building at Mitzpeh Har Halutz with the assistance of the congregation of the West London Synagogue headed by Rabbi Hugo Green.

It is our desire to create a multi-purpose building which will be the highlight of Har Halutz's public facilities area. The building will include a synagogue, community hall, kitchen, classrooms, library and offices. We are most delighted to have the support of the West London Synagogue and will gladly name the building in their honor. However I must add that since the kind contribution of West London will not cover the cost of the entire building we might commemorate an additional sponsor (possibly by honoring such a sponsor with a plaque in the community hall). I assume from our telephone conversation that such an arrangement might be feasible.

I am enclosing a very general first sketch of such a building, done by an architect who is a member of our community here at Har Halutz. The sketch should be considered as nothing more than an initial conceptual rendering. Please let us know in what manner we can be of additional assistance to you.

Sincerely yours,

Hal Applebaum
Mazkir, Har Halutz
