

גרעין גליל להר חלוץ - כנוס היסוד

We, the undersigned, do hereby declare, at this, the first Kinus of Garin Galil, our commitment to establish and strengthen the links between the diaspora and the State of Israel through aliya and do hereby affirm that the Jewish People is inextricably linked together.

As evidence of our leadership in our cause, we pledge to support and encourage the establishment in the Galilee of a Jewish pioneering settlement to be located on Har Halutz - a full life cycle, free enterprise community dedicated to a spiritual and productive life style which will enhance the quality of life for its members and the State of Israel.

Our community shall include among its goals the quest for religious pluralism, friendly interaction with the neighboring communities of all religions, and the encouragement of political activism by its members.

To each other we pledge our unselfish encouragement and support in this meaningful but difficult endeavor.
